## **Discovering God in the Evolving Universe: Faith and the New Cosmology**

What is the new cosmology, the study of the universe? How does it inform our life of faith? By presentations, personal reflection and prayer, we will explore the developments in scientific thought and discoveries that have changed our concepts of created matter and what these developments reveal about the nature of the Creator God, Jesus Christ and the Divine energy of the Holy Spirit.

**WHEN: Wednesday, September 29, 2021
